SUMMARY

Full Stack Engineer with **2.5+ years of experience** designing and delivering production-grade web applications across the full development lifecycle — from system architecture and database design to CI/CD deployment and post-launch maintenance. Proficient in **Next.js, React.js, Node.js, Express.js, PostgreSQL, and MongoDB**, with hands-on expertise in real-time systems (Socket.io, live streaming), cloud infrastructure (AWS EC2/S3/IVS), workflow automation (N8N), and third-party API integrations. Experienced in leading end-to-end platform development in fast-paced startup environments. Passionate about building high-performance, scalable applications with immersive frontend experiences using Three.js and WebGL.

EXPERIENCE

KoolMind Technolab LLP

Full Stack Engineer

Dec. 2025 – Present

Ahmedabad, India

- Led end-to-end development of **Kharido** and **Transport24HR** platforms serving 4+ user roles, built on Next.js, Node.js, PostgreSQL, MongoDB, and Prisma ORM
- Designed scalable REST APIs, **JWT-based authentication**, and role-based access control (RBAC), ensuring zero unauthorized access incidents across all portals
- Integrated **AWS IVS** for low-latency live streaming and **Google Maps API** for real-time GPS tracking, enabling live product showcasing and end-to-end shipment visibility
- Built full **Razorpay** payment gateway integration with webhook verification, automated refund handling, and complete order lifecycle management supporting 100% automated payment flows
- Automated business workflows (lead management, CRM sync, notifications) using **N8N**, eliminating manual handoffs and reducing processing time significantly
- Managed containerized deployments via **Docker** and **GitHub Actions CI/CD** pipelines on AWS infrastructure, improving release speed and deployment reliability

Alphabit Infoway Pvt Ltd

Full Stack Developer

Oct. 2024 – Jul. 2025

Rajkot, India

- Built and shipped multiple full-stack web applications using the **MERN stack** (MongoDB, Express.js, React.js, Node.js), focusing on performance, scalability, and clean architecture
- Developed immersive frontend experiences using **Three.js, WebGL**, and 360-degree panoramic views for product catalog and metaverse use cases
- Deployed and maintained applications on **AWS and Heroku** with responsive design, secure user authentication, and cross-browser performance optimizations

Alphabit Infoway Pvt Ltd

Front-End Developer

Oct. 2023 – Sep. 2024

Rajkot, India

- Built and maintained responsive web interfaces using **HTML5, CSS3, and JavaScript (ES6+)**, ensuring cross-browser compatibility and optimized page performance
- Developed reusable **React.js** component libraries with Redux-based state management, reducing UI development time for new features
- Implemented responsive layouts using **Tailwind CSS and Bootstrap**, delivering consistent UX across desktop and mobile devices
- Collaborated on codebase management using **Git, GitHub, Jira**, and Trello for version control and team workflows

PROJECTS

Kharido | *Next.js, Node.js, AWS IVS, Socket.io, MongoDB, Razorpay, Docker*

- Live-streaming e-commerce platform enabling sellers to host real-time product showcases with integrated purchasing and order management
- Integrated **AWS IVS** and **Socket.io** for low-latency live video, real-time product updates, and audience interactions supporting concurrent users
- Implemented **Razorpay** payment gateway with webhook verification, automated refund processing, and complete order lifecycle tracking
- Built three role-based portals (Admin, Seller, Buyer) with JWT authentication, RBAC, product & stream management, and order tracking

Transport24HR | *Node.js, Express.js, PostgreSQL, Prisma ORM, Socket.io, Google Maps API*

- Real-time transport management platform connecting customers, transporters, drivers, and admins through a unified digital ecosystem
- Built load posting, transporter bidding, booking management, **Proof of Delivery (PoD)**, and document management modules from scratch
- Implemented live GPS tracking, route visualization, and real-time ETA calculation using **Socket.io** and **Google Maps API**
- Deployed multi-role portals (Admin, Transporter, Driver, Customer) with **Dockerized AWS infrastructure** and GitHub Actions CI/CD pipelines

ZCAD Publication Platform | *React.js, Node.js, Express.js, MongoDB, JWT*

- Built dynamic author dashboard enabling authors to manage profiles, book submissions, and track publication status
- Created secure and scalable REST APIs with **JWT-based authentication** and role-based access control for author and admin portals

Task Management System | *React.js, Node.js, MongoDB, JavaScript*

- Developed a full-stack task management system with status tracking (To-Do, In Progress, Completed), automated deadline alerts, and role-based access for admins, managers, and employees
- Integrated visual dashboards for real-time task completion rates and team productivity insights

EDUCATION

Gujarat Technological University
Diploma in Computer Engineering

Apr. 2021 – Apr. 2023
Gujarat, India

SKILLS

Frontend : Next.js, React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Bootstrap, Redux Toolkit, GSAP

Backend : Node.js, Express.js, REST APIs, JWT Authentication, RBAC, Socket.io, Webhooks

Databases : PostgreSQL, MongoDB, Prisma ORM, Sequelize, MySQL

Cloud & DevOps : AWS (EC2, S3, IVS), Docker, CI/CD, GitHub Actions, Hostinger, Nginx, PM2

Automation & Integrations : N8N Automation, Workflow Automation, CRM Integration, Webhook Integration, Third-Party API Integration

Real-Time Technologies : Socket.io, Live Streaming, GPS Tracking Systems, Google Maps API, Real-Time Notifications

Immersive Technologies : Three.js, WebGL, AR/VR Concepts, 360° Panorama Viewer

Payments : Razorpay Integration, Payment Gateway Integration

Tools & Version Control : Git, GitHub, GitLab, Postman, Swagger, VS Code, Figma, Jira, Trello

LANGUAGES

Gujarati : Native **Hindi** : Proficient **English** : Advanced
